Subject: Response to your request for access to documents under section 9 of the Act respecting Access to documents held by public bodies and the Protection of personal information (hereinafter the “Access Act”)

Mrs ,

This is in response to your request for access to documents received by email on March 13, by which you request to obtain:

- Any environmental documents or information pertaining to the environmental quality of the designated property, such as:
 - notice of infractions, geotechnical or environmental study report, inspection report, spill report, certificate of authorization, complaints, site or infrastructure plans, presence of waste, fill, of waste, fill, petroleum hydrocarbon tanks (gasoline, diesel, fuel oil, soil and water contamination, etc.).
- Any document relating to the history of the designated property, such as:
 - Municipal permit history sheet or any other document dealing with use of the site (general vocation, construction of buildings, renovations demolition or expansion work, etc.), identification of its occupants and/or a description of their respective activities (residential, commercial and/or industrial).

After verification, we are responding unfavorably to your request for access to documents since we do not have the required information because the RRSSSN does not own the land (Art. 47 para. 1 paragraph 4° of the Access Act). We refer you to Landholding (Makivvik Land Administration System)

Finally, please find enclosed a copy of the Act respecting Access to documents held by public bodies and the Protection of personal information, containing the above-mentioned sections, as well as the notice of recourse provided for in the Access Act.
