I WISH TO WORK
AS A SPECIALIST
PHYSICIAN IN
NUNAVIK

*The positions available in Nunavik are mandatory network positions (PRO). These positions are granted when it is impossible to ensure the autonomy of the establishment holding the position in this specialty and when a service corridor is permanently created between two establishments. As its name suggests, the PRO comes with the obligation for the institution holding the position to enter into an agreement with another institution that will serve it. In return, once the agreement is signed, the establishment offering the service may recruit a specialist doctor.

I WOULD LIKE TO DO AN INTERNSHIP IN NUNAVIK

If you are a family medicine student in the 1st, 2nd, and 3rd year in a faculty of medicine in the Province of Quebec, except for the University of Montreal and McGill University where only students enrolled in pre-medicine 1 and 2 are eligible, and you wish to do a summer internship in Nunavik, visit the SARROS website at: equipesarros.ca/stage

Exceptionally, students from Quebec enrolled in a faculty of medicine located outside the province are also eligible during the first three years of training.

If you are an extern or a resident in family medicine and you wish to do an internship in Nunavik, contact:

INUULITSIVIK HEALTH CENTER
Dr. Eve-Magali Sauriol La Palme, Dr. Sébastien Lynch & Dr. Maxime Leroux-La Pierre
Directors of Studies
