

KUUJJUAQ FOOD SUPPORT

Update : 04-24-2024

FIRSTS STEPS

When in need of food support in your community, reaching out to friends, family and neighbours can be a great starting point. Posting in or monitoring community facebook pages and the local radio, can also be very effective as it is common practice to share harvests and home cooked meals through these platforms.

Additional food supports are also offered intermittently by local and regional organizations, such as Makivvik food distributions. Stay engaged in community news to learn when these may be happening.

The following is a list of additional community resources that are also available.
