

ORDINANCE 2021-04

Date: June 17th, 2021

Subject: Restrictions and measures in place when traveling to Nunavik

WHEREAS the very low number of new cases of COVID-19 in the communities of Nunavik since the beginning of 2021;

WHEREAS the epidemiological situation in the southern part of the province is improving;

WHEREAS all adults in Nunavik have had the opportunity to receive two doses of vaccination against COVID-19;

WHEREAS Quebec, Canadian and American adults were offered or will be offered a second dose of COVID-19 vaccine in the coming weeks;

WHEREAS there is growing evidence that fully vaccinated individuals are more adequately protected against infection with COVID-19 and are thus less likely to be contagious;

The Regional Director of Public Health, as per section 106 of the Public Health Act, and the Director of Public Security of Nunavik, as per a Civil Protection Act, modify the restrictions applicable to travel to Nunavik. Thus, as of June 21, 2021, all individuals are authorized to travel to Nunavik if they obtain an authorization to access the territory of Nunavik (AATN) and comply with public health and public safety directives. Thus:

- a questionnaire requesting the authorization to enter the territory must be completed at least 72 hours before departure;
- all individuals must provide, before boarding, proof that they have tested negative for COVID-19 within 72 hours prior to departure;
- all individuals of 12 years of age and older, unless presenting a medical exemption, must at all time wear a procedure mask while on plane;
- individuals unprotected against COVID-19 must quarantine for ten (10) days;
- the quarantine is no longer required for protected individuals against COVID-19 who can provide proof of such protection before travelling;
- all passengers must be tested for COVID-19 between six (6) and nine (9) days after their arrival to the region.

Travel between the northern villages of Nunavik is permitted without conditions.

In the event of a change in the health situation in Nunavik or in other regions of Quebec, the regional director of public health and the director of public security could again restrict access to the territory or issue conditions for travel between the northern villages of Nunavik.

Protected individual is defined as: an individual immunized at least 14 days prior with any combination of two doses of the following vaccines [MOD COVID-19 (Moderna), PB COVID-19 (Pfizer-BioNTech), AZ COVID-19 (AstraZeneca), Covishield (SII)] or one dose of the following vaccine [JAN COVID-19 (Janssen)] or if immunized at least 14 days prior with one dose of any COVID-19 vaccine available in Canada after having had laboratory-confirmed COVID-19 infection;

Unprotected individual is defined as: an individual that does not meet the above definition, i.e. is not immunized or has incomplete immunization.

Marie Rochette, M.D., M.Sc., FRCPC
Director of Public Health

Jean-Pierre Larose,
Chief of Police and Director of Public Security
